

## APPLICATIONS OF ASTROLOGY

Indian seers and saints has made various scientific principles that were helpful for the progress of an individual and society as a whole. The sole aim of these principle was for human welfare. Indian society has sixteen rituals to perform from birth to death. These rituals were called as **Solah Samskaara** in hindi. Other then these sixteen rituals many general principles and by-laws were made for a common individual. The main aim behind these development was for human being so that they can live their life with comfort and discipline. By following these principles one becomes pure which result in progress of that individual.

Astrology is said to be the eyes of Vedas. Astrology is used for performing any auspicious deed like puja, marriage, house starting, business establishment, etc.

In ancient times, student used to stay at teacher's place (Guru Kul) and learnt sixty-four types of arts. Astrology was one art among these sixty-four arts.

Problems and obstacles are caused by deeds that a human perform in his lifetime. Good or bad situations arise by the deeds that an individual has done before. If the deeds are good, then the situation of planets in horoscope of the person is also good. Similarly, if the deeds are evil then the planets gets situated in malefic position in the horoscope. This is the

basis of Astrology. Thus it does not mean that everything is to be left on to deeds. An individual's duty is to live life according to the procedures and guidelines that are propounded by ancient saints. An individual has to be happy and content in whatever situation he gets. Astrology is helpful in reducing problems that arise due to mis-deeds of previous births.

There is difference between **Doing** and **Happening**. An individual performs business or job, etc. where profit and loss happens. Doing is in the hands of individual while happening is not in the hands of an individual. Therefore an individual has to be careful in doing and should be happy in result. Doing is the duty of an individual while giving the result of these deed is in the hands of that almighty. Thus, ancient texts tells that one must perform one's duty properly.

By doing remedial measures of the malefic situations in a horoscope, some relief and peace can be sought, but a person has to face the repercussions of the mis-deeds that he has performed. By taking medicines, disease of the body can be eradicated, but disease generated out of one's mis-deeds cannot be eradicated by medicines only. They will eradicate only after making that person suffer. But it is difficult to draw conclusion that disease that an individual faces, which of them is deed generated and which are caused due to malfunctioning of the body? Thus, it is the duty of an individual to take curative measure and treatment incase of a disease is generated in body. Similarly, it is also the duty of an individual to perform pacification of various malefic combinations that have been generated in the horoscope.

With the help of Astrology one can reveal incidents in the past. Future incidents that will occur can also be predicted in Astrology. Here, an individual can make his deeds as per the knowledge and guideline of Astrology. If obstacles, losses etc. are expected to arise in future, then an individual should perform his work very carefully. Like by knowing the forecast of rain, individual takes umbrella with them while going out. Similarly, Astrology is forecast for future and an individual should follow these principle for avoiding lossess and getting maximum profits. An individual wishes to get maximum happiness in life. If he gets the information about what is going to reveal for him in future then he can adjust his mind and work accordingly. For example, as per an individual horoscope partnership is not suitable for him. Now if this information can be used by that individual in a wise way then the person will get happiness and profits and will be safeguarded for lossess.

In this way Astrology can help an individual to know what is lying for him in future so that he can adjust himself and his deeds for getting maximum returns.
